A E  
Just like you can't, judge a book, by the cover,  
F#m D  
we all got to be careful, how we treat, one another.

A	F#m	E	D	(E)
Skin deep, skin deep, underneath, we all the same.				
A	F#m	E	D	(E)
Skin deep, skin deep, underneath, we all the same.				
	A	F#m	E	D
We all, are the same				

## Guitar Solo

**VERSE :**

A man in Louisiana, he never called be my name,  
he said "boy do this", and "boy do that",  
but I never once complained.  
I knew he had a good heart, but he just didn't understand,  
that I needed, to be treated, just like any other man.

**CHORUS x2**

## Guitar Solo over Chorus chords (x2)

**VERSE :**

I sat my child down, when he was old enough to know,  
I said out there in this big wide world,  
you're gonna meet all kind of folk.  
I said son, it all comes down to just one simple rule,  
that you treat everybody, just the way, you want them to treat you
